COBBLESTONES

Chelmstone's cobblestones compliment a variety of architectural styles and are a feature in many prestigious homes.

Commercially, our cobblestones have proven themselves with stunning effect in street scapes and promenades.

Chelmstone's cobblestone is technically advanced by manufacturing the randomly selected stones, connected by a cord into a 765 x 385 x 40mm mat.

This paving system enables multiple continuous laying of 33 stones per mat, reducing the traditionally high cost of installation.

// Specifications //

Size: 765 x 385 x 40mm mat = 3.4 per m²

Colour: Voodoo

Strength/Durability: High density mix design, as tested to AS/NZS 4456.4/5 1997

Abrasion/Wear: Excellent abrasion, as tested to AS/NZS 4456.9

Slip-Resistance: Non-slip surface, as tested to AS/NZS 3661.1 1997

Stain-Resistance: High durability and stain resistance, as tested to AS/NZS 4456.14
